First steps into Open Source

Get involved, collaborate, create

Aleksander Lorenc

lorenc.aleksander@gmail.com

The Goal

Creating your own website using Github Pages

Github

Registration and creating your own repository

Git

Cloning repository, commiting, pushing

UNIX:

```
echo "# repositoryname.github.io" >> README.md
```

WINDOWS:

```
echo "# repositoryname.github.io" > README.md
```

```
git init
git add README.md
git commit –m "First commit"
git remote add origin https://github.com/repositoryname/repositoryname.github.io.git
git push –u origin master
```

Pull requests

Create a pull request
